NET WEIGHT	30 KG 66 LBS
DIMENSIONS	350 X 350 X 1100 CM 138 X 138 X 433 IN
USE	INDOOR & OUTDOOR
FDA LISTED AS A MEDICAL DEVICE	

The GS100 is a large capacity, portable, disinfecting sprayer made of stainless steel. A compressor produces a mist of ultra-fine particles. Air movement will ensure those particles evenly penetrate in and around complex shapes while not leaving surfaces wet, making it safe to use around sensitive equipment. The portability and large tank size make it ideal for applying disinfectants, herbicides, fungicides, pesticides and odor neutralizers in even the largest of locations.
